Transcript

Selection

1. Log in to the Conference Proposal Interface using your TIES-enabled ITU User Account.

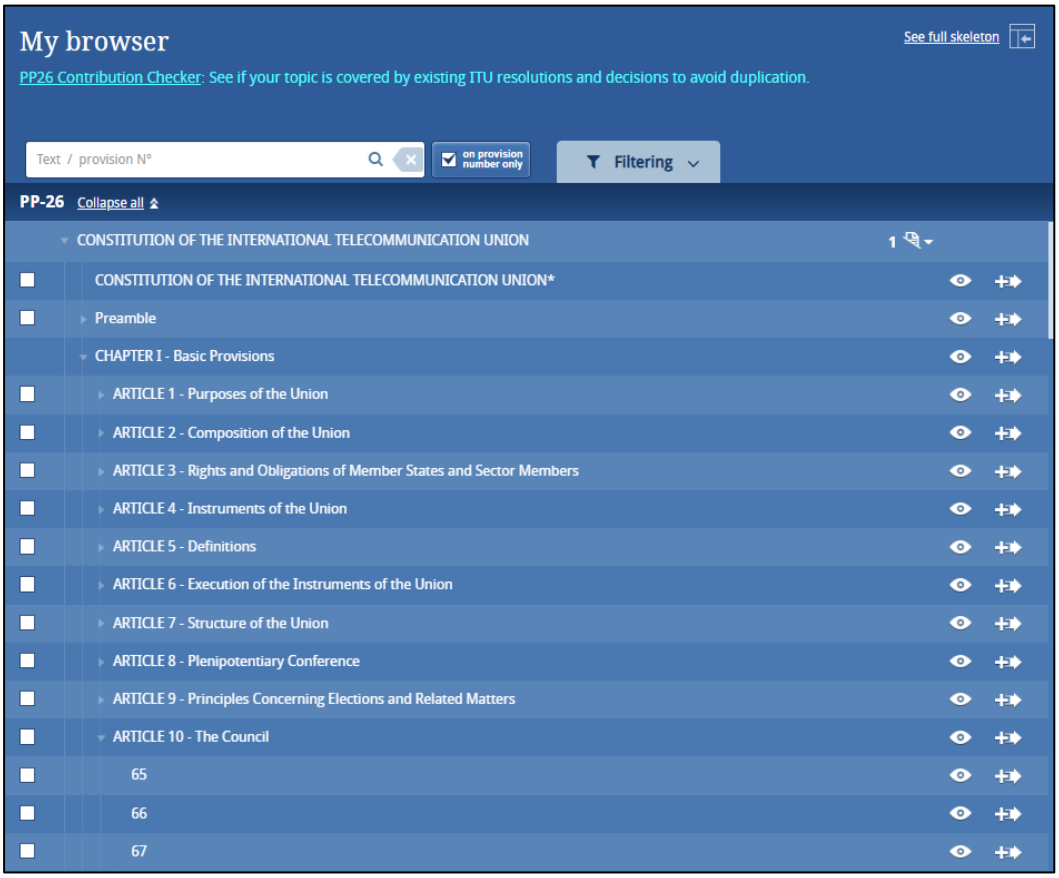

2. Select ‘My browser’ on the left side of the screen.

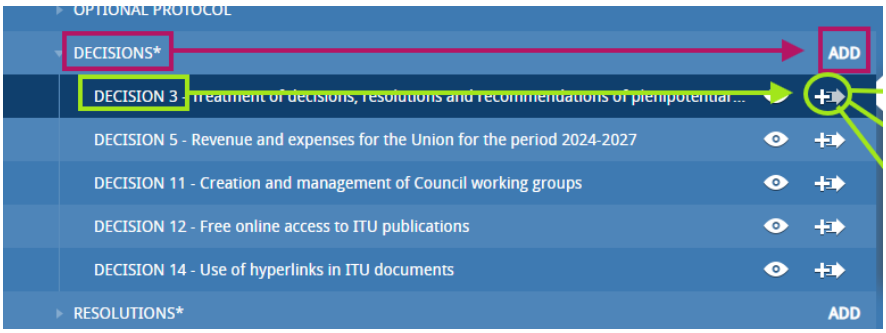

3. Search for the basic text. You can do this by typing a keyword or a specific provision number into the search bar or you can manually browse by clicking the

arrows to expand the Basic Texts tree, drilling down from Chapters to Articles to specific sections of the Constitution, Convention or other texts.

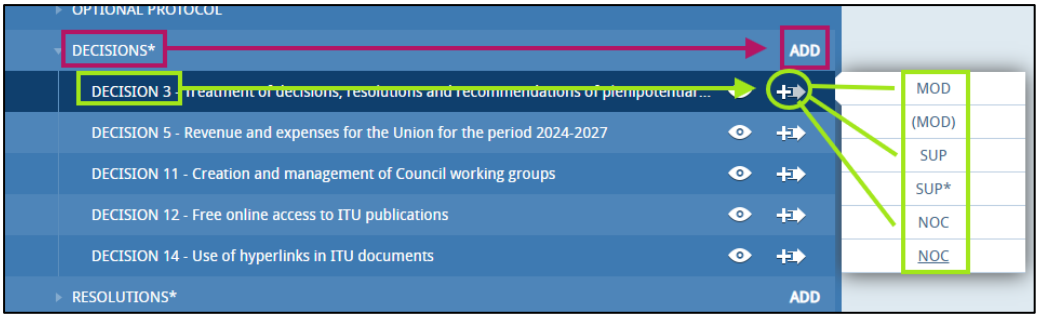

Action Assignment

4. Once you locate your target provision, click the icon next to the provision to open a drop-down menu of ‘Actions’.

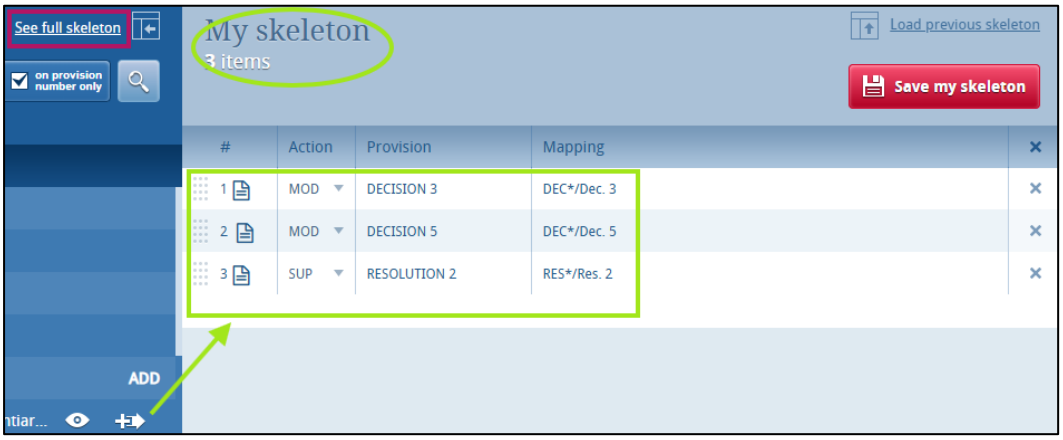

5. Choose one of the standardized tags from the drop-down menu.

Skeleton generation

6. On selecting an Action, the selected provision moves into your ‘My skeleton’ list. If you select ‘ADD’ for a new provision, CPI will automatically prompt you to give it a temporary letter or number. For example, adding provision 2A under Article 1. Use the pencil icon in your skeleton list to modify the temporary title.

7. Once all your provisions and actions have moved to ‘My skeleton’, click the red ‘Save my skeleton’ to generate your file.

8. On clicking ‘Save my skeleton’, a dialogue box is displayed asking you to designate the Sources of the proposal. Choose one of the three options
   I. Submit as your individual Member State
   II. Submit as a Regional Group, for example, European common proposal
   III. Submit as a multi-country submission with co-signatories

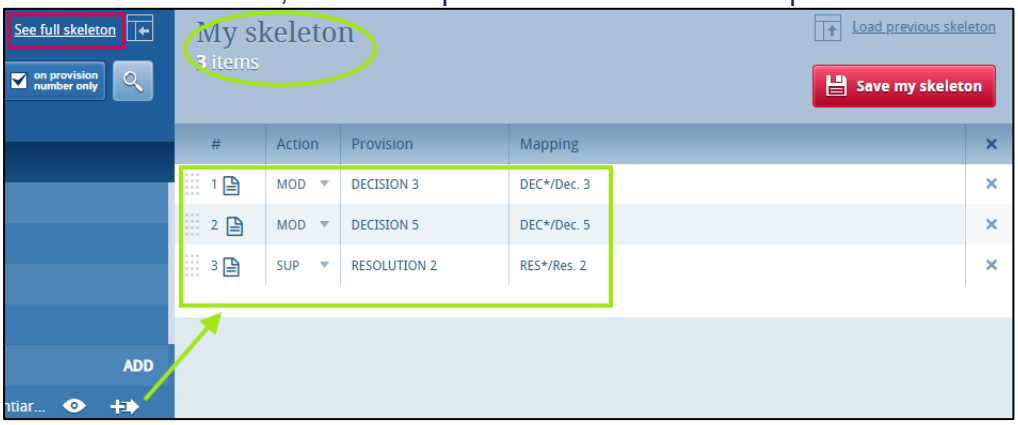

9. By default, the name of your Member State will be displayed. To add co-signatory countries, use the drop-down list of Member States.
   Add a suffix if the contribution is an addendum to an existing contribution.

10. Click ‘Save my skeleton’ to lock in your structure and generate a word file. Since CPI is a web interface, the actual text modifications are not saved in CPI. CPI only generates the baseline file.

11. To retrieve a skeleton, click ‘Load previous skeleton’ at the top of the interface.

12. Once saved, CPI will assign a provisional number and a unique ticket name to your document. Do not modify or delete these codes as they contain hidden texts used by ITU’s internal systems to track the document’s history.

MOD SUI/4000/3

RESOLUTION 2 (REV. ~~BUCHAREST, 2022~~DOHA, 2026)

World telecommunication/information and communication technology policy forum

The Plenipotentiary Conference of the International Telecommunication Union (~~Bucharest, 2022~~Doha, 2026),

considering

a) relevant resolutions of the United Nations General Assembly (UNGA);

b) the WSIS+~~10~~ 20 Statement on the implementation of World Summit on the Information Society (WSIS) outcomes and the WSIS+~~10~~ 20 Vision for WSIS beyond ~~2015~~2030, which were adopted at the ITU coordinated WSIS+10 High-Level Event (~~Geneva, 2014~~XXX, 2024), based on the Multistakeholder Preparatory Platform process, ~~together with other United Nations agencies and inclusive of all WSIS stakeholders,~~ lorem ipsum dolor sit amet, consectetur adipisci

13. The MS Word file will be emailed to the address linked to your TIES account. Open this MS Word document to view your selected provisions.

Finalization and submission

14. The finalization and submission happen outside the web browser. Open the word file and draft your actual text. If the action selected was ‘MOD’, turn on track changes before you type your edits.

15. Below the text is a section titled, Reasons. Use this to justify your proposal.

16. Use the cover page generated to add an introduction section, if needed. Add a heading and paragraph introducing your document. The introduction and reasons will not be included when documents are in-sessions (DTs).

17. Once your document is complete, save it locally on your computer.

18. Your Administration’s Member State Focal Point must now officially submit this via email (contributions@itu.int)

19. For multicounty contributions, add the Focal Points of other Administration Member States to the email.
